

# Smarter energy management starts with better data

eXpertConnect™ gives approved users convenient mobile access to their electricity usage, demand, alerts and billing insights. Designed for sites using SATEC metering solutions, the app helps users monitor energy performance, identify unusual activity and make smarter decisions around usage, costs and efficiency while on the go.

- ✓ Energy insights on the go
- ✓ Faster response to unusual activity
- ✓ Smarter energy insights

### View high & low usage periods

View high and low usage periods to identify patterns, spot inefficiencies and better manage energy use.

### Track your energy usage

Track your energy usage over time to understand consumption trends and manage costs more effectively.

### Tariff & Pricing Information

View tariff and pricing information to better understand energy charges and manage costs with confidence.
